Information on scholarships and student financing

Dear students,

Many of us experience financial challenges during our studies that can't just be eliminated by working a part-time job. One helpful way to receive support during your studies is a scholarship.

If you're thinking: "Scholarships are only for nerds and overachievers," we can take that worry away.

Foundations and other scholarship holders do not only look at your grade point average. Social and volunteer work, as well as your financial and educational background, can also play a role in the decision-making process. That's why it's always worth applying - it can't be worse than a rejection.

Here we would like to give you some information about the 13 major scholarships for gifted students and the "Deutschlandstipendium". In addition, there is a huge range of other foundations and scholarship holders.
